## Enhancement

### Clubs

#### Club totals are now displayed on the Club Sales Report

Retail managers can now view individual club totals when the **Club Sales Report** is generated for more than one club.

These totals are displayed in bold under the transaction list for each club.

To view the **Club Sales Report**:

1. From the **Minfos Launch Pad**, click the **Customers** icon.
2. Click the **Club Sales Report** icon.
3. Choose range selections for Customers, Clubs and Dates and click **OK**.

## Resolved Issues

### Dispense

- Minfos now calculates the correct **Total Price** when the standard pack size is not the same as the maximum quantity allowed by the Pharmaceutical Benefits Scheme.
- Tabbing through the **Dispense** form no longer resets the **Price**.
- Minfos now uses the regular **Retail Price** in Dispense if the **Promotion Price** is greater than the Retail Price.
- On certain drugs, Minfos was not displaying the **Preferred Generic Drug** prompt. This has now been resolved.
- It is now possible to search by Doctor in the **Dispensing History by Schedule Report**.
- Removing the option for **Use Fixed Price** now calculates the script to use NHS price.
- It is no longer possible to duplicate a doctor with the same Registration Number.
- Minfos now auto-populates the Registration Number when adding a doctor that does not exist.
- The pharmacist selection for the **Pharmacists Script Certification Report** now covers the whole range of pharmacists.
- The **Repeat Reminder Report** now displays the prescriber's details.
- The **Owing Scripts Report** now correctly shows the prescriber's details when selected.

### Stock Manager

- A performance issue has been resolved in **Product Quick Fix**.
- Under certain conditions, Minfos was not displaying the sales in **Sales Enquiry Transaction**. This has now been resolved.
- **Price Manager** no longer applies new Retail Prices to products that have been filtered out.
- Using the shortcut of **[Alt+A]** in the **Bar Codes** tab in **Product Maintenance** now works as expected.

### Updates

- Minfos **Automatic Product Updates** no longer fail if the first three suppliers have no new updates.

### Customers/Till

- Paying a layby by **Card** no longer reports a **Major Balance Error**.
